

Visitation and Activity Modification Plans

Resident and Family Survey

Resident: _____ Person Completing Survey: _____

Minnesota has released updated visitation and activity guidance that will go into effect on August 29. This is a modification to the current visitor and activity restrictions and allows visitors to reenter the facility while wearing face masks and after being screened. Visitors will be educated on appropriate conduct while in the building, including PPE use, minimizing interaction with staff and other residents, and maintaining 6 feet of distance between themselves and the resident they are visiting.

We know that there is reason to proceed with caution regarding reopening due to COVID risk to our population; however, we also know that it is important to learn to live with COVID and our current visitation restrictions are not a long term option and come with significant negative impact to many of our residents.

Each person and family is different, and we want to make sure we hear your voice and are able to make educated decisions as we move forward.

As we develop our reopening plan, we would like your input.

1. **On a scale of 1 to 5, with 1 being fearful and hesitant of reopening and 5 being not fearful or hesitant at all, where are you with the idea of reopening Perham Living to visitors?** _____

Comments: _____

2. **As we finalize this plan, do you have anything you would like us to take into consideration?:**

3. **Do you have any special requests or anything else we should be aware of?:**
